ARTICLE 27. ADVERTISING.

27.1 Control.

IFMA controls advertising, which Athletes and Officials wear at on-site final Championship training, in official press interviews and on warm-ups immediately prior to the bout and in the corner. This control is normally delegated to the Continental Bureau concerned for Continental Championships and to the National Associations for their competitions and for other National Team Matches.

27.2 Procedures.

The usual IFMA procedures for advertising around the field of play and on the Athletes' competitive clothing in actual competition are sometimes superseded by host country's legislation involving television exposure and by venue contracts with local sponsors.

It is necessary that these potentially conflicting points of interest be carefully coordinate with the host broadcaster and with the host country early in the planning, so that IFMA sponsors can obtain full and adequate identification in the best available manner.
